

Voyager

Mobile Digital Video Recorder DVR4100

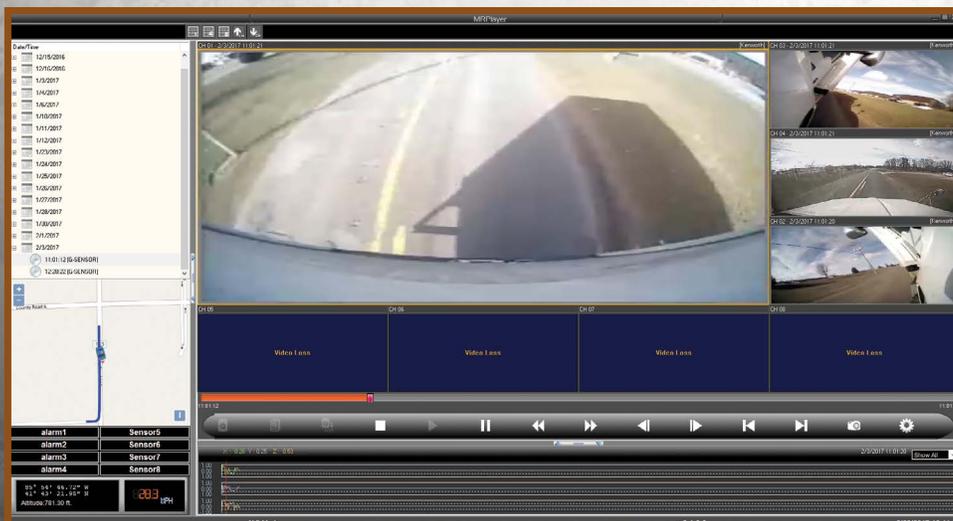

Create custom systems that are pre-programmed for you.
The plug'n'play harness and compatibility with existing
Voyager camera systems makes installation easy.

The DVR4100 gives you multiple ways to save and review your data. You can watch videos directly on an in-screen monitor, remove the hard drive, or use a USB drive to back-up the data on your hard drive. The recorder also utilizes a 256 GB SD card for back-up.

The best part is the DVR4100 is yours - you own the system outright without any monthly fees.

- Four camera recording
- Tamper-resistant storage
- Automatic event triggering
- Multiple methods for video review
- GPS speed and map syncing
- Heavy-duty construction

Software Interface
