

NCTP100

# Tire Pressure Monitoring System

# iN·Command<sup>®</sup>

CONTROL SYSTEMS

- Four Bluetooth-enabled tire pressure monitoring sensors
- Bluetooth repeater boosts ensures strong signal
- App ready- each tire on tow vehicle and towable can be monitored individually for pressure and temperature
- Tire pressure and temperature history can be accessed to potentially identify problem tires
- Wide pressure monitoring range (0 to 185 PSI)
- Can support up to 22 total tires (with the purchase of additional sensors)
