

Voyager®

7" Digital Wireless Monitor

WVOM713AP

Digital Wireless
Auto-Pairing

FEATURING

WiSight® technology

Adding camera systems to your equipment is easy.

Our new **auto-pairing** technology can seamlessly pair this WVOM713AP Voyager monitor to **any** wired Voyager camera on **any** equipment.

This revolutionary system allows for an operator to pair the unit with the touch of a button, simplifying connections and eliminating bulkhead wiring.

PRODUCT FEATURES

- Kit includes monitor and DC hardwire
- Signal transmits through and around objects up to 60 feet away
- Three camera inputs (one wireless, two wired)
- Permanent mounting options available

(WVTX1AP transmitter and wired Voyager camera both sold separately)
