FEATURING

WiSight® technology

SYSTEM INCLUDES:

- 5.6" color monitor
- Waterproof camera with 117° viewing angle
- Suction cup mount for the monitor
- 12V plug-in for the monitor

*Is your Motorcycle lying up against
the trailer wall?*

Is it bouncing around?

Did the straps come loose?

Did it bounce out of the wheel chock?

With the new ToughCam™ Digital Wireless Camera System you will never have to guess! A quick glance at the 5.6" windshield mount monitor will tell you instantly if everything is OK or if you need to pull over and tighten some straps BEFORE something happens to damage your precious cargo.

WiSight® Digital Technology digitally locks the camera to the monitor and allows you to see through walls *wirelessly*.

Just mount the camera high on the front wall where you will be able to see everything going on inside the trailer from your driver's seat.

A wide viewing angle, along with 14 IR LED lights for extreme low-light conditions inside your trailer will give you peace of mind knowing everything is nice and secure, just the way you left it.

Add an optional wired camera on the back of the tow vehicle using the adaptor harness 31100131.

We Play Dirty!
