

iN·Command[®]

CONTROL SYSTEMS

Independent Tire Pressure Monitoring System

Monitor the air pressure and temperature of up to 22 tires at once with the iN·Command[®] Tire Pressure Monitoring System. The waterproof sensors use Bluetooth[®] technology to communicate important safety information right to your smart device with the iN·Command[®] TPMS app. Just open the app to assign a sensor to each tire by scanning the QR code with your device's camera to receive audible alerts.

Four-Sensor System

Includes four waterproof, Bluetooth enabled tire pressure monitoring sensors, a signal repeater, four locking nuts, and a specialized wrench to unlock nuts.

NCTP100

Two-Sensor System

Includes two waterproof, Bluetooth enabled tire pressure monitoring sensors, two locking nuts, and a specialized wrench to unlock nuts.

NCTP1002

Note: Tire Pressure Monitoring System can be used independently of iN·Command Control Systems.
