

## Product Change Notice

In order to ensure our products continue to evolve as the technological market changes, ASA Electronics will be updating our line of JENSEN® entertainment equipment as follows:

The JENSEN® JXA8BA2 Amplified Subwoofer is being discontinued. The JMPSW800 Amplified Subwoofer is the suggested replacement. Please contact your individual sales representative for additional suggestions.

Some applications may require the use of line level converter SNI35 to adapt from the high-level output of the head unit to the line level input of the JMPSW800. Refer to second page for diagram.

This change will take effect when current supply runs out.

### JXA8BA2

- Max power handling: 150 watts
- Power system: 12VDC
- RMS power: 75 watts
- Frequency: 53Hz-600Hz
- 8" IMPP woofer
- Built-in amplification
- Ported enclosure design for enhanced low frequency output
- Mate-in-lock connectors for easy installation
- Right angle mounting brackets included
- Adjustable gain and crossover
- High and low (line) level inputs
- Overall dimensions: 19.6"W x 9.9"H x 5.9"D

### JMPSW800

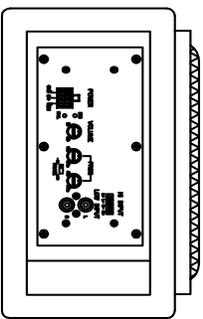

- **Max Power Handling: 200 watts**
- Power System: 12VDC
- **RMS power: 100 watts**
- **Frequency: 60Hz-200Hz**
- 8" IMPP woofer
- Built-in amplification
- **Slim design**
- **Black anodized all aluminum enclosure**
- Mate-in-lock connectors for easy installation
- Adjustable gain and crossover
- Low (line) level inputs
