

Voyager®

Product Transition Notice

In order to ensure our electronics prices remain competitive, ASA Electronics has made the decision to move manufacturing of some existing products out of China. We have issued new part numbers for the products that will now be manufactured in Malaysia.

The CVPS19 Six Channel Rear Proximity Sensor System will be replaced by the CVPS192 Six Channel Rear Proximity Sensor System. Malaysian products will be built and tested to the same standards and all features and technical specifications will remain the same.

This change will be effective when current supply runs out.

CVPS19

CVPS192

Product Features

- Proximity detection/warning system with four bumper/body mount sensors
- Seamlessly integrates into any Voyager rear camera system
- Clear, easy to read on-screen display overlays that do not obstruct camera view
- Audio fed through monitor speaker
- Engineered for commercial vehicle environments
- Compatible with JENSEN® touchscreen stereo (with camera input)
- Compatible cameras: VCAHD140i, VCMS20, VCMS20B, VCMS17, VCMS17B

If you have any questions regarding these product changes or want information on specific pricing, please contact your ASA sales representative or ASA Customer Service at 574-264-3135 or 800-688-3135.
