

DESIGNED TO MOVE [YOU]®

Product Change Notice

JENSEN® JE3914

In order to ensure our products continue to evolve as the technological market changes, ASA Electronics will be updating the JENSEN® JE3914 television as follows:

The JENSEN® JE3914 will be changing to a different IO configuration. The new Rev Level is denoted by "G" changing from the previous design of Rev Level "F". This change will be effective October 2014.

The new revision solution has common component/composite video input and shares the same I/O as Y/V (Yellow/Video). The TV detects if a CVBS or Y Pb Pr signal is connected automatically.

The Composite Video input is now shared with the Component Video input. It is no longer a separate Yellow input. HDMI1 now supports ARC 1.4, Audio Return Channel.

The new solution includes an added headphone output.

Old I/O

New I/O

- Please note there are no changes to the cabinet or mounting pattern.

If you have any questions regarding this change, please contact your ASA sales representative or ASA Customer Service at 574-264-3135 or 800-688-3135.

Notification Date: 9/3/14
