

DESIGNED TO MOVE [YOU]<sup>®</sup>

## Product Change Notice

In an effort to keep our audio and video products on the cutting-edge of technology, ASA Electronics will be updating our audio line as follows:

The JENSEN<sup>®</sup> MS2013BT stereo will be discontinued. ASA will replace this unit with the JENSEN<sup>®</sup> MS2A stereo with app control technology. This change will be effective when MS2013BT stock is depleted.

ASA has now upgraded this unit to include full function app control technology via a free downloadable application for both Android and iOS users called JENSEN<sup>®</sup> jControl. This app transforms your phone or tablet into the ultimate wireless remote control for your JENSEN<sup>®</sup> stereo system. There are no physical, mechanical or installation changes to the unit.

jControl controls all of the primary functions of your stereo including:

- Power on/off
- Volume and mute
- AM/FM radio tuner - access station, recall, store presets or switch songs
- Audio menu: bass, treble, balance, fader, equalizer, volume and speaker selection settings

### MS2A

If you have any questions regarding this product change or want information on specific pricing, please contact your ASA sales representative or ASA Customer Service at 574-264-3135 or 800-688-3135.
