

DESIGNED TO MOVE [YOU]®

Product Change Notice

In order to ensure our electronics prices remain competitive, ASA Electronics has made the decision to move manufacturing of some existing products out of China. We have issued new part numbers for the products that will now be manufactured in Malaysia.

The JWM10A Wall Mount Stereo will be replaced by the JWM12A Wall Mount Stereo. Malaysian products will be built and tested to the same standards and all features and technical specifications will remain the same.

This change will be effective when current supply runs out.

JWM10A

JWM12A
