

Voyager®

Product Discontinuation Notice

Voyager® WVOM713AP

In order to ensure our products continue to evolve as the technological market changes, ASA Electronics is updating our product line as follows:

The Voyager® WVOM713AP has been discontinued. This change will take effect when current supply is exhausted. Suggested substitutions include the WVOM43 and WVOM541AP monitors.

WVOM713AP FEATURES

- Proprietary 2.4 ~ 2.5 GHz digital wireless A/V transceiving technology (WiSight) featuring Auto-Pair connectivity
- Long distance transmit/receiving capability
- Monitor and camera are digitally linked (paired)
- 7" wide-format TFT LCD panel
- Energy efficient white LED illumination
- Back-lit controls
- Integrated audio speaker
- Excellent low-light and bright daylight environment performance
- Split trigger (two- and three-way)
- Auto dimming screen saver

If you have any questions regarding this product change or want information on specific pricing, please contact your ASA sales representative or ASA Customer Service at 574-264-3135 or 800-688-3135.
