

Voyager

Product Transition Notice

In order to ensure our products continue to evolve as technology changes, ASA Electronics will be phasing out our current wireless observation cameras, monitors, and systems using WiSight Technology.

The Voyager WVTX1AP Digital Wireless Transmitter, using WiSight Technology, will be discontinued. ASA's replacement receiver is the Voyager WVTX2AP Digital Wireless Transmitter, using **WiSight 2.0 Technology**. This change will take effect when current supply is exhausted.

WVTX1AP
WiSight® technology

WVTX2AP
WiSight® 2.0
TECHNOLOGY

- Proprietary WiSight Technology with Auto-pairing
- Long distance transmit/receiving capability
- Single camera output
