Re: Replacing KMC1SU4Z with KMC2

Details: The KMC1SU4Z can be replaced by the KMC2. The KMC2 will need to be configured as a 4 Zone set up through a hidden menu. Follow the steps below to set the KMC2 as a 4 Zone head unit.

- 1.) Press and hold settings (⚙️) to enter into the System Settings.
- 2.) While “Key Beep” is highlighted, Press the keys shown below in sequence, 1-2-3.

- 3.) Scroll to the bottom of the list using the volume knob. Select “Zone Selection” by pressing the volume knob like a button. (this option is normally hidden)

- 4.) Rotate the knob to select to select 4 Zone. Press the knob to confirm. Wait for the head unit to restart. It should now be set as 4 Zone and control the Zone settings on the boat.
